Va. teaches
kids the
mosquito
control sign

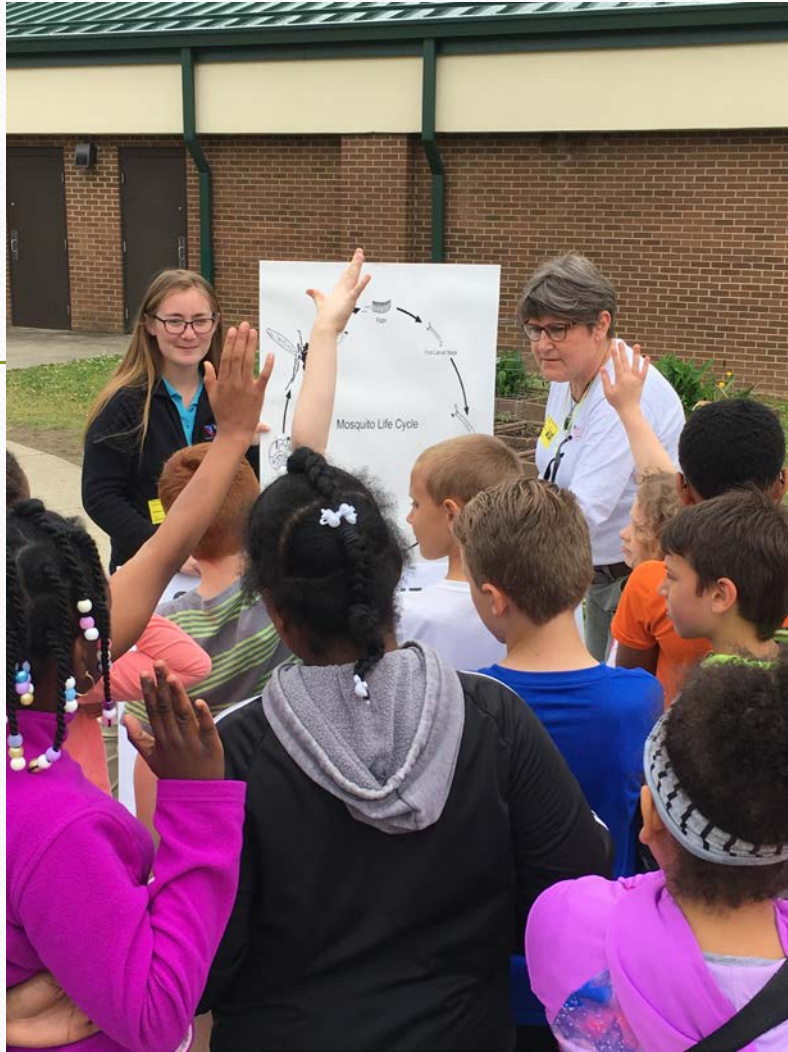

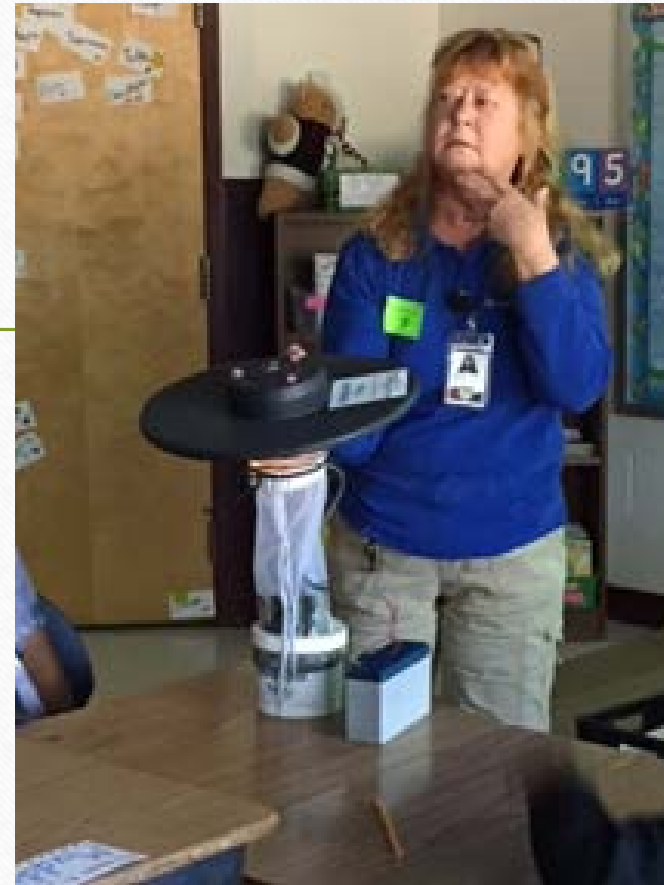

Tim Dubois uses skills to teach students

Lisa Wagenbrenner teaching students

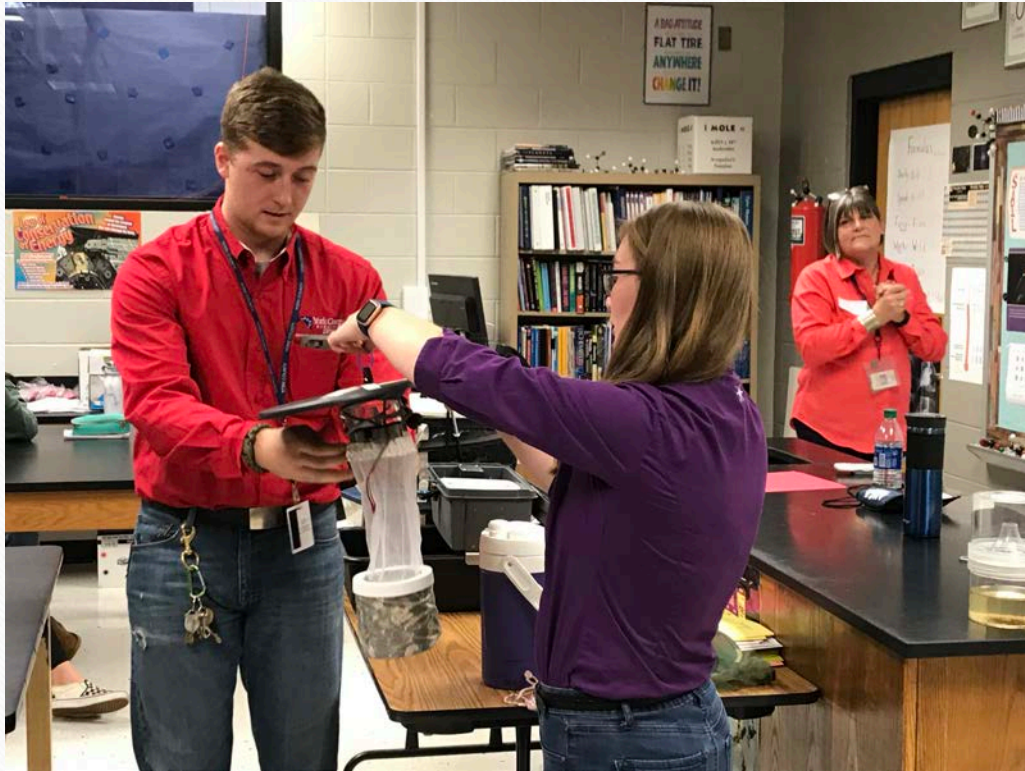

Betsy Hodson and Janice Pulver at the elementary school.

Mary Ann Herring showing students how to use a CDC light trap.

Career Days for Elementary and High Schools

Festivals and Events

The last week in June each year is National Mosquito Control Awareness Week! The attached literature discusses our mosquito control efforts and how you can protect your family from mosquito borne illness. We have also enclosed a sample of insect repellent.

We appreciate your help in the mosquito control effort; please make sure to empty all of the standing water in your yard. Have a safe summer.

York County Mosquito Control Division

BugFest 2018

Saturday June 30
10:00 AM – 3:00 PM

Tabb Library
100 Long Green Blvd, Yorktown

Scavenger Hunt

Insect Displays

Bug-Themed Story Time (11:00 AM)

Live Demonstrations

Any Event

- York County and some of the other municipalities will do science fairs to encourage students to go into the science field.
- Sometimes we get interns out of our events.

Just Ask Us

- All municipalities in Virginia are interested in sharing our ideas and we want to hear your ideas as well.
- Remember the key is to make everything a teachable moment.
